PREPARED FOR (CLIENT)

Anand Vihar Sweet Shop

Address: Near HDFC Bank, Jhanda Chowk,

Jhumri Telaiya, Koderma, Jharkhand

PIN Code: 825409

1. DELIVERABLES (WHAT WE ARE GIVING)

● PostgreSQL & Prisma 7 Sweet Shop Architecture

Fully migrated state-of-the-art database layer from MongoDB to PostgreSQL using Prisma ORM. Eliminates NoSQL bottlenecks and brings robust relational transactional safety for client checkouts.

● E-Commerce Cart & Ordering Module

Fully interactive, client-side shopping cart. Supports dynamic item counter badges, coupon code discounts validation, flexible delivery address profiles, and secure checkouts.

● WhatsApp Redirect Checkout & COD Options

Allows users to place orders using standard Cash on Delivery (COD) or auto-generate prefilled order summaries redirected directly to the owner's WhatsApp (+91 9934190109).

● Dynamic Web Administration Dashboard

Enables owner to toggle settings in real-time (online ordering switches), manage categories, products, stock listings, view sales analytics reports, and update dispatch order statuses.

● Multi-User Blog & Verified Testimonials

Allows all logged-in users to share community posts (blogs) and submit verified ratings. Seamlessly integrates user testimonies and images directly into the public media gallery.

● Responsive & Stickied UI/UX Layouts

Designed with sleek mobile-first aesthetics. Sticky navbar keeps navigation reachable. Custom map features pointing exactly to Jhanda Chowk store location.

2. PROJECT COST & PAYMENT MILESTONES

Item Description	Payment Milestones	Amount (INR)
Initial Project Deposit (50%)	Paid on 16th July 2026	₹10,500
Final Project Completion (50%)	Paid on 20th July 2026	₹10,500
Total Project Cost	Fixed Scope	₹21,000

3. YEARLY MAINTENANCE & HOSTING AGREEMENT

- Yearly Support Fee:**

A flat maintenance fee of ₹4,000 per year will be charged for developer support starting from completion date.
- Technical Assistance:**

Includes instant technical glitch fixes, database backups, performance monitoring, and server debugging support.
- Hosting & Domain Costs:**

Hosting services, domain registration, SSL certificates, or any email SMTP API costings will be paid directly by the client (Anand Vihar) in the future. The developer bears no hosting liability.
- Performance Upgrades:**

Minor text corrections, sweet menu updates, and regular package version checks are included as part of maintenance.
